John,

In the parties' status letter to the Court, you committed to producing a number of categories of documents by today or sooner. We have not received any production. What is the status?

Thank you,

Good Morning,

Unfortunately, we've had unanticipated delays. Obviously, the technical difficulties the Law Department faced at the beginning of this month hindered our ability to begin production. In addition, although we initially believed that a large portion of the documents could be produced with minimal review, it turned out that that was not the case. Given the circumstances we confronted, we did not have the resources or time to complete the production. However, review is under way and production will be forthcoming, but it will take more time than we initially thought and most likely have to be completed on a rolling basis. I am still hopeful that we will be able to produce the entire file by the August deadline that we suggested.
